SAMPLE OF A STORY WRITTEN IN 1936 FOR THE AMERICAN GUIDE PROJECT

This story was not only difficult to read, it was also missing some pages. It is not a part of the book.

ison Huide claw Water wards *THE AMERICAN GUIDE! 13 At Gase dge 6 a Tour of BEghway 96 Thm u S cott County As one ofters Sc ott C ounty from the west which is bordered by Wichita county upon highway No. 96, they enter upon an oiled road which continues the full length of Goott County. The county of S cott is very rolling in the south part while to the extreme month it is q uite rugged in the most part while to the extreme month it is q uite rugged in the north full of canyons. There are very few trees in the southern half, only just the onts the people have planted, while while in the month the c anyons are practically full of them. As we return to the west size of the county to begin our trip, we revel only two and one half miles a til we reach a small them thout is called Modoc. Modoc is located about one quarter of a miles north of the highway. It consists of a good size grade school. Two elevators, store, h ardware, baka and a few **dec**iling houses that are of frame structure. The Missouri Pa fic R allroad runs along the highway No 96 about one quarter mile North. It passes thru the south edge of Modoc. 20 south edge of Modoc . The farms around Modoc are of a Medicem size. The Rouses are not of a modern type. The farm buildings are of frame structure and wery sma 11. The farms are not as large as the ones are farthere 4 east and south. 3) east and south. Now let us take a side tour to the north of Modoc. Fire miles north of Modoc one c ones upon a small creak call d Beave This is an excella t place for fishing and canning if one edjoys such sports. The Beave Creak flows about one half the will the of the county then it turns North and continues on into the next county which is Logan. Colorado. Colorado. On our way back to 2 odoc we find another creek called Lion creek. This is located just a mile south of Modod., But is some places it has small branches which cross bighway No. 96.(7) Back to Modoc we continue on our trip across the County. Traveling five and one half miles we come to a large farm located just southof the highway. This farm has a modern house and barn. The farm also has an i rightion system. The cronscaled around this part of the county is corn cane, miles make and wheat. Some callies are pastured in the winter, and clarge number of sheep which pusture off the wheat, make and the start of the county is corn back the start of the county is corn back the start of the county is corn back the start of th 4 off the wheat. I here miles south of Cla use Hughes farm wes flus the Lough ranch. I hes farm consists of about four to five sections. of round/ It was pla nfeed int out at the section of states states row crops and wheat are rais d here notice. It also has at irregation -
